

Project Porchlight is going to **light up Alberta!**

Over the next few months, Project Porchlight volunteers are going to deliver 500,000 energy-efficient compact fluorescent light (CFL) bulbs door-to-door throughout Alberta! We're starting in Medicine Hat, where our volunteers will distribute nearly 30,000 CFL bulbs this fall.

Come help us kick off the Alberta campaign!
Join us on **Saturday, October 13 at 10:30** at the
Esplanade Arts and Heritage Centre (Studio Theatre),
401 First Street SE, Medicine Hat

Lots of fun stuff to see and do! Test your human power with our interactive energy display!

Why are we celebrating?

Our volunteers will distribute 500,000 energy-efficient light bulbs in Alberta. That means:

- \$25 million of energy savings that can be used for other things in our communities.
- A very positive effect for our environment: less electricity used means less pollution.

But, more importantly, we're celebrating what will be an awesome community effort. It's people like you who have proven over and over that taking action to save energy is as easy as changing a light bulb!

We appreciate your contribution to the success of Project Porchlight! Join us to find out about our exciting plans for Alberta and Medicine Hat.

Please let us know if you can make it.

Contact **Brian Doyle**, brian@onechange.org, 403-645-7694
or call toll-free (1-866-585-6359) for more information.

Project Porchlight's Alberta campaign has the generous support of **Alberta Energy**, **EnCana Corporation**, the **City of Medicine Hat**, **Climate Change Central**, **Kiwanis** and **Shaw**.
